

AutoTORQ Ratchet Wrenches

FL-XL

- **Requires minimum clearance**
- **Fits nearly every application**
- **Light and dependable**

When your torque job demands minimal clearance and lightweight dependability, the AutoTORQ FL-XL Ratchet Wrench by FASTORQ should be the first tool you reach for to get the job done right.

With its breakthrough design, the FL-XL beats square drive socket wrenches, fits almost any application and provides torque on the same plane as the nut. Its unibody construction eliminates pinch points and when used with a 10,000 psi hydraulic pump, the FL-XL series delivers 100 to 50,000 ft-lb of torque.

The FL-XL series tackles nut sizes ranging from 3/4 inch to 7-1/4 inches

across the flats, features corrosion resistant exposed parts and has a reaction pad that eliminates the need for a reaction member.

An additional benefit that pushes the FL-XL to rise above the competitor's delicate design is its patented 360-degree swivel fittings, which allow hose movement without binding. Coupled with stainless steel construction and fewer moving parts, it's easy to see why the FL-XL is the best choice.

Backed by FASTORQ's 1-Year Total Assurance Guarantee and new Warranty Extension Program, the FL-XL is the obvious choice when making the best ratchet wrench purchase you've ever made. See FASTORQ's Warranty page 29 for more details.

FS-XL

- **No pinch points**
- **Cost-effective**
- **Lightweight**

As one of the most cost-efficient bolt make-up and break-out options on the market, square drive ratchet wrenches meet your needs without draining your wallet. When looking for a time-tested and proven wrench, look no further than FASTORQ's FS-XL Square Drive Ratchet Wrench.

The FS-XL incorporates a patented, slotted piston rod design that increases accuracy and reduces moving parts. It does all of this while providing an incredibly strong and lightweight wrench body made of aircraft alloy.

Delivering unibody construction that eliminates pinch points, the FS-XL Square Drive Ratchet

Wrench comes with anti-reverse pawl and pawl release features. In addition, the FS-XL series provides 100 to 60,000 ft-lb of torque with the use of a 10,000 psi hydraulic pump.

FASTORQ's FS-XL Square Drive Ratchet Wrench pairs well with FASTORQ's superior 610A Power Unit and is available in several models with square drives ranging from 3/4 inch to 2-1/2 inches.

FASTORQ's 1-Year Total Assurance Guarantee and new Warranty Extension Program provide additional reasons why you should get your next square drive ratchet wrench from a company that not only leads the industry in innovation but backs its tools with the best warranty in the market today. See FASTORQ's Warranty page 29 for more details.
